1. Introduction. Despite significant attention given to animal diseases in the last half-century, our understanding of disease processes, and how to manage them at the livestock-wildlife interface, remains limited (Rhyan and Spraker, 2010). The increasing role of wildlife in the emergence of livestock and human diseases is due to multiple changes occurring within wildlife, livestock, and ...

Paracetamol, also known as acetaminophen or APAP, is a medicine used to treat pain and fever. It is typically used for mild to moderate pain relief. Evidence for its use to relieve fever in children is mixed. It is often sold in combination with other medications, such as in many cold medications. In combination with opioid pain medication, paracetamol is also used for severe pain such as ...
