

zoomable user interfaces on pdf

In computing, a zooming user interface or zoomable user interface (ZUI, pronounced zoo-ee) is a graphical environment where users can change the scale of the viewed area in order to see more detail or less, and browse through different documents. A ZUI is a type of graphical user interface (GUI). Information elements appear directly on an infinite virtual desktop (usually created using vector ...

Webots will help you design a new service robot, a tiny toy robot, a big agriculture robot, a vacuum cleaner, a swarm of drones, an autonomous submarine, or whatever robotics system that moves and interacts with its environment through sensors and actuators.

Webots: robot simulator

Brand new GUI design, with improved usability and touchscreen support, fully zoomable.; Scripts can now be exported as independent VST plug-ins.; Customize the user interface in the plug-in (no code required), or write your own layout for each script. Separate player and editor modes for optimal workflow.

Blue Cat's Plug'n Script - Scriptable audio / MIDI effects

A presentation program is a software package used to display information in the form of a slide show. It has three major functions: an editor that allows text to be inserted and formatted, a method for inserting and manipulating graphic images, and a slide-show system to display the content.

Presentation program - Wikipedia

Although primarily aimed at software architects and developers, the C4 model provides a way for software development teams to efficiently and effectively communicate their software architecture, at different levels of detail, telling different stories to different types of audience, when doing up front design or retrospectively documenting an existing codebase.

The C4 model for software architecture

Maxthon Cloud is a suite of state-of-the-art, cloud-power, next-generation web browsers that work in concert, making it easy for users to maintain a continuous experience, un-tethered to a single device or operating system.
