The reasons given above are why Knots at Work was written. With over 50 arborist knots presented, both aspects of knot knowledge are given equal timeâ€”knot construction (tying the knots) and knot application (using the knots). This information can be quickly grasped from the lavishly illustrated pages and the easy-to-read text.

knot. To dress a figure-of-eight on a bight, loosely tie the knot and then work out any twists or crosses. Think of the rope strands as freeway lanes. Just like the lanes of a freeway, the cords should remain side by side, never cross at any point along their path. When the crosses have been worked out, tighten the knot.
