Framework for Improving Critical Infrastructure Cybersecurity

This paper attempts to explain why innovating firms often fail to obtain significant economic returns from an innovation, while customers, imitators and other industry participants benefit Business strategy – particularly as it relates to the firm's decision to integrate and collaborate – is shown to be an important factor.

Profiting from technological innovation: Implications for

Technological unemployment is the loss of jobs caused by technological change. Such change typically includes the introduction of labour-saving "mechanical-muscle" machines or more efficient "mechanical-mind" processes (). Just as horses employed as prime movers were gradually made obsolete by the automobile, humans' jobs have also been affected throughout modern history.
