DISCLOSURE PROCESSES IN CHILDREN AND ADOLESCENTS PDF

The bulk of research has focused on disclosure processes in adults and relatively little attention has been given to that phenomena in children and adolescents. The collection of chapters in this book redresses the balance by systematically examining disclosure processes in children and adolescents.

the disclosures of the 630 cases. From these data, the proposed disclosure process was identified and variables analysed retrospectively in a subset of 116 confirmed cases of child sexual abuse. The disclosure process was identified as containing four progressive variables. Denial is defined as the child's initial statement to any individual

Diploma in Child Protection Studies - Child Matters

to Summit (1983), when children do reveal their abuse, disclosure will be incremental over time, a process that often includes outright denials and recantations of prior disclosures, and then reinstatements of the abuse. It is important to keep in mind that there are two separate aspects of this model, each with its own components.

DISCLOSURE OF CHILD SEXUAL ABUSE What Does the Research

The process for disclosure should be discussed and planned with the parents and may require a number of visits to assess the child's knowledge and coping capacity. Older children have a better capacity to understand the nature and consequences of their illness.
