The Politics of Trade and Tobacco Control December 2014 This book uses the concept of political conflict to examine the effects of globalization on tobacco control policies.

### **(PDF) The Politics of Trade and Tobacco Control**

Concomitantly and in part consequentially, the growth of world trade has surged. For most of the postwar period, the growth of trade has outpaced growth in world output. Also important are changes in the nature of global trade. There has been tremendous growth in intra-industry trade and in in- trafirm trade.

Much of the research on the political economy of trade emphasizes the demands for protection made by various segments of society. These studies generally consider domestic institutions and policy makers as passive actors that supply those trade policies demanded by the most influential interest groups (Ikenberry et al.
