Overview. This updated implementation guidance is intended for all those who set policy for, or offer care to, pregnant women, families and infants: governments; national managers of maternal and child health programmes in general, and of breastfeeding- and Baby-friendly Hospital Initiative (BFHI)-related programmes in particular; and health-facility managers at different levels (facility ...

### **WHO | Protecting, promoting, and supporting breastfeeding**

Breastfeeding, also known as nursing, is the feeding of babies and young children with milk from a woman's breast. Health professionals recommend that breastfeeding begin within the first hour of a baby's life and continue as often and as much as the baby wants.

### **Breastfeeding - Wikipedia**

Abstract. Breastfeeding and human milk are the normative standards for infant feeding and nutrition. Given the documented short- and long-term medical and neurodevelopmental advantages of breastfeeding, infant nutrition should be considered a public health issue and not only a lifestyle choice.

### **HOSPITAL POLICIES The TEN STEPS - who.int**

Breastfeeding provides babies with the best start in life and is a key contributor to infant health. Australia's infant feeding guidelines recommend exclusive breastfeeding of infants to around six months of age when solid foods are introduced and continued breastfeeding until the age of 12 months and beyond, if both mother and infant wish.
